

WASHINGTON, D. C., SUNDAY MORNING, JULY 14, 1895.

SIFTING OUT THE SMALL LOTS

We're going to buckle right down now and get ready for stock-taking. For the next six days you'll enjoy purchasing privileges that are costing us a concession of cold, hard cash. Wherever there's a small lot or broken sizes, there the beckoning finger of a bargain is raised over a sterling quality that has been sacrificed to make sure of a quick and complete clearing out.

STAR SHIRT WAISTS.

A table full of all the odds and ends out of our 75c, \$1, and \$1.25 Star Waists. Few of a pattern—but lots and lots of patterns—all this season's. What do you think of a chance to buy the best Shirt Waist made for

48c!

The cheapest kind sold for that. Aren't we slaughtering things, though?

Underwear.

We only made one mistake in our selection of underwear for this summer. And that was in not getting a better lot of color. We've got a lot of Old Gold Irish Balbriggan Shirts and Drawers

that are simply perfect in fit and finish, and as good garments as we ever had to offer for 35c—but the shade don't seem to sell. They can't stay here—

SEE IF YOU DON'T EXCHANGE THE COLOR AT

48c.

Neckwear.

All the small lots of SILK TIECKS and FOUR-IN-HANDS 25c. Grade. and you know that our quarter scarfs are the kind they sell for 35c. everywhere else—are in a case down by the Market Space door.

17c. TAKE "3 FOR A HALF."

Duck Pants.

How can we do it? We told you. They're Manufacturer's Samples that he's through with—that's how. We'll be through with them this week—long before Saturday night if the crowds keep up. The \$1 and \$1.25 ones are all plain white—

Half Price

FEATHERWEIGHT COATS.

All the broken lots of Thin Summer Coats—and there are lots of 'em—for this time been an enormous thing—good season with us. Of course there isn't a full run of sizes in any one style—but you can find a lot of it in one lot—in another—if you're quick about it.

These Babies Were Born Within White House Walls

Mrs. Donelson Wilcox, Niece of Andrew Jackson, and Miss Letitia Christian Tyler, a Granddaughter of President Tyler.

The recent addition to the family of the President awakened new interest in the children who first saw light under the roof of the big white mansion which has sheltered our Presidents, and it is the capital which can claim the honor of having within its gates two of the three living persons who claim the honor of being "White House babies"—leaving the other Cleveland out of the question.

The persons whose birth took place in the White House were seven in number, but two of these died in early childhood. Of those living, Mrs. Donelson Wilcox, a daughter of the niece of Jackson, is the eldest living, and her birth took place in the eastern room of the Executive Mansion, in the chamber which faces the Avenue, and which had since been used by the Harrison and Cleveland as a nursery.

Mrs. Donelson, who was justly famed for her beauty, was brought to the White House when she was a child, and her mother, Mrs. Andrew Jackson, was appointed as private secretary to the President, and on the death of Mrs. Jackson Mrs. Donelson assumed the entire charge of the place and of the social duties devolving on the "mistress of the White House."

Very soon after her entering upon these new duties, the baby was born, and in a short while a grand christening followed in the East Room. The ceremony was according to the forms of the Episcopal Church, though the clergyman who performed the ceremony was a Presbyterian minister, the Rev. Dr. Gallagher.

The entire diplomatic corps, the houses of Congress, and the Cabinet were present, and the baby was held in the arms of Jackson during the entire time, laughing at the splashing which bedewed her tiny face with drops.

A FAVORITE OF JACKSON. During the entire time of both of Jackson's administrations the Donelsons lived with him, and the stern old man was devoted to his dainty little grandchild, whom he called "the sunrise of the White House," and when the cornerstone of the new Treasury was laid, and he was requested to place in the box something of value, he put in the manuscript of one of his messages to Congress, and a tiny curl of the child's hair, saying it was his "dearest possession."

When a large girl, Mary Donelson moved with her family to the home of Jackson in Tennessee and for some time lived at the beautiful "Hermitage," which has recently been taken over by the patriotic ladies of the South. She lived good while abroad and was present at the Theatre Francaise when the immortal Rachel first raised her

out of the money of that sum. After the death of Tyler's wife, the daughters spent the following year in mourning at their old Virginia home, and on the daughter-in-law, the wife of young Robert Tyler, devoted all the duties of the position of head of the President's establishment.

In April, 1842, Letitia Christian Tyler, daughter of young Robert Tyler, was born in the same room in which Mrs. Wilcox had seen the light some years before. This lady is now at work in the Navy Department. She is a fine-looking woman, with gray hair, blue eyes, and a rosy complexion.

Adverse to PUBLIC NOTICE. Mrs. Tyler disdains to make any appearance in public that she would not consider with a caller for a paper on the subject, but said that she, like her father and mother, preferred to be left unnoticed in private life.

Another White House baby was Robert Tyler Jones, a son of a daughter of President Tyler. Only a few weeks ago he died, having at that time a small position

under the government. It was this man who was one of the colored guard in the famous charge at Gettysburg made by General Pickett, and when the color-bearer was shot young Jones seized the flag and went on amid the smoke and flame until wounded severely, when General Armstrong took the flag and bore it into the breastworks of the enemy, where he fell and died. Robert Jones walked from Gettysburg to within twenty-five miles of Richmond after the fight was over.

Miss Julia Dent Grant, daughter of Col. Fred Grant, is a young lady just turning out in New York and inherits the name of her mother, who, as Miss Ida Monroe, was the belle of Chicago and a woman of rare loveliness of mind and person. Miss Julia is highly educated and has spent much time abroad, as her father for some years was our minister to a European power and is another White House baby.

So there are now four people living in the White House, as commonly believed, who were born in the homes of the Presidents of the United States.

Mr. Pie keeps boarders. Mr. Wood and Mr. Brown are a couple of roasters. Mr. Wood and Mr. Brown are a couple of roasters.

Mr. Noble and Mr. Argue, the latter of whom is a contractor, have surely missed their true vocations. What immeasurable possibilities, what opportunities to gain renown as his species was ever penetrated and expanded over remote corners of the earth, ramifying with a zeal worthy of a better cause; in fact he is not voluminous at all, being slender, short and dumpy. He wears a black mustache, and has black eyes in which there burns a hopeless ambition, since he knows that even though he might do the deeds of Napoleon, or have the skills in his hand working like Edison's, he could never make his name more famous than it has already become, nor rescue an individual bearing it from domestic obscurity.

His neighbor, ideal composite Brown, is fat and hairy. His numerous relatives fail to disturb him, he is so far above them all. He is as stout as Jones, yet he makes much noise. His Christian name is Carl, a gay and almost gentle appellation, well suited to a bright, curly-headed youth, but sadly incongruous when connected with the bluster and roar of a Common Squabble. He does not make this city his headquarters, now, but so strong an impression did his sojourn among us make, that, like the shattered vase, the seal of him hangs round us still.

Inland Rules to Prevent Collisions.

Acting Secretary Wike has approved the recommendations of the Advisory Board defining the lines within which inland rules to prevent collisions at sea are to be followed at the capes of Delaware bay and the harbors of Philadelphia, New Orleans, Brunswick, Ga., Savannah, Charleston, Mobile, Pascagoula, Portland, Ore., Portland, Me., and San Diego. Lines for the Chesapeake capes, Baltimore, New York, San Francisco, Boston and Galveston have already been approved. Three-fourths of the vessels from foreign ports enter at the ports for which the lines have now been drawn.
